

# Is Lucifer one of the Covering Cheribum on the Ark of the Covenant?

MESSIAH'S  
MANSION

**Short answer: Yes, but let's go through a few points in the Bible.**

In Exodus 25:20, the Ark of the Covenant is described as having two cheribum, or the covering cherubs, that covered it on the mercy seat. In Ezekiel 28:16, Lucifer was called a covering cherub.

We can say that Lucifer used to be a covering cherub, represented by one of the angels on the Ark, before his fall.
